# Year in Review

TIB operates and develops its programs following core values set forth in our strategic plan. The following projects and policies implemented in 2007 help to achieve our strategic vision: Fully-funded and Completed Projects.

## Core Value: **Improve and Innovate**

Meeting Performance Measures - In June 2007, we met all performance goals for the first time since setting targets.

Project Tracking System Integration with Google Maps - We completed geocoding and mapping all past and current TIB projects on Google Maps.

Small City Inventory and Pavement Condition Field Survey - We completed field inventory and pavement rating of all 174 small cities.

Small City Maintenance Management System - We developed a maintenance management module in the TIB dashboard with 1,600 miles of small city street condition data.

Business Process Improvement (BPI) - We completed our most significant BPI project, redrafting all agency existing WAC rules from scratch. The project eliminated many outdated rules and implemented Plain Talk principles.

## Core Value: **Manage Projects to Ribbon Cutting**

Executive Director's Watchlist - We actively assist customers by identifying and working to resolve various problems that threaten project completion. Watchlisted projects dropped to the lowest level in six years.

BNSF Consultations - The Executive Director established ongoing consultation meetings between BNSF and local governments.

## Core Value: **Dollars in the Ground, Not in the Bank**

Delayed Projects Policy Implementation - TIB's three stage intervention in delayed projects reduced delayed inventory 60% in the past five years.

City Hardship Assistance Funding Retained for Small Cities - TIB put current revenue to use by reallocating residual CHAP funding to the Small City Preservation Program, increasing program size by 50 percent.

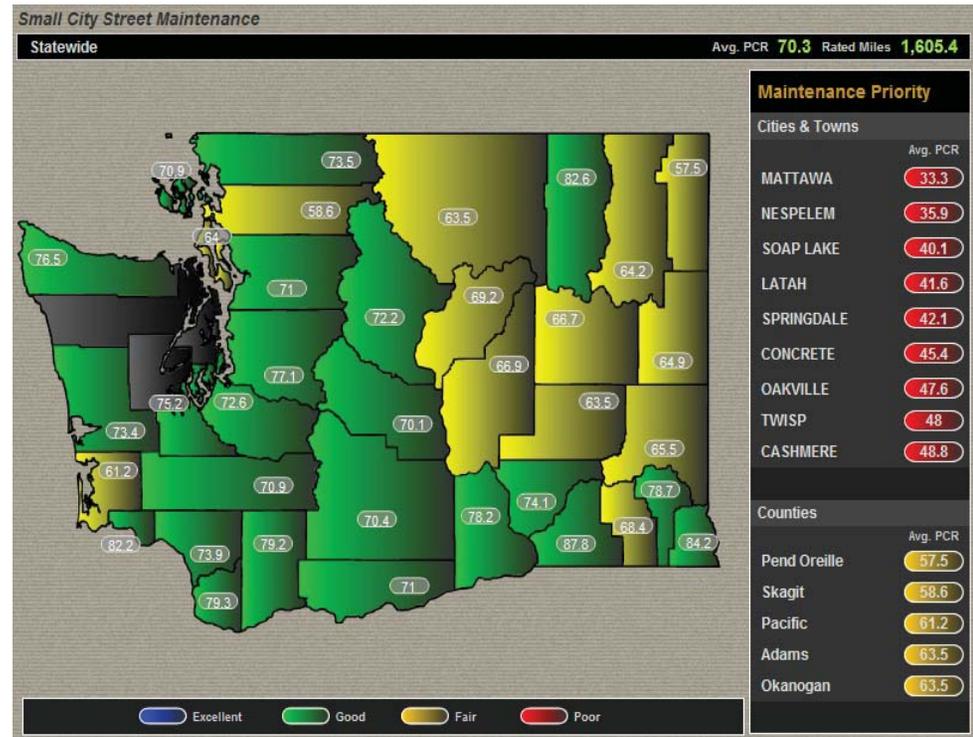

## Core Value: **Catalyst for Project Completion**

Program Stability - 2007 was the fifth consecutive year without a program cancellation.

## New Initiatives for 2008

**Red Towns Initiative** - In 2006 and 2007, TIB staff inventoried the pavement condition of 1,600 street miles in all 174 cities eligible for the Small City Preservation Program. We categorized each small city based on average pavement condition compared to the statewide average pavement condition rating of 68.5. Nine towns emerged as having the lowest average pavement condition and, in some cases, their streets are beyond recovery using normal maintenance methods. TIB targeted these nine towns for additional funding and we plan to restore their street systems to at least the statewide average over the next three years. Seven of the nine received maintenance funding in 2007. The two towns with the worst pavement condition, Mattawa and Nespelem, received a special allocation of funding. TIB staff are developing a significant street restoration program for each town in 2008.

**Sustainability Criteria and Grants** - TIB is developing criteria for its urban programs to provide funding incentives for sustainable energy, environmental and recycling measures in urban projects. Urban grants awarded in 2008 are expected to include sustainable design and construction techniques. Subject to available funding, the board plans to offer a modest grant program to fund sustainability projects associated with street and traffic systems.

# Board Members

The Board is composed of six city members, six county members (County Road Administration Board [CRAB] member is ex officio), two Washington State Department of Transportation (WSDOT) officials, two transit representatives, a private sector representative, a member representing the ports, a Governor appointee, a member representing non-motorized transportation, and a member representing special needs transportation. Board members are appointed by the Secretary of Transportation to four-year staggered terms with the exception of the CRAB representative and the Governor's appointee.

**Councilmember Jeanne Burbidge, Chair**  
City of Federal Way

**Commissioner Greg Partch, Vice Chair**  
Whitman County

**Commissioner Leo Bowman**  
Benton County

**Todd Coleman, P.E.**  
Port of Vancouver

**Kathleen Davis**  
WSDOT

**Mark Freiberger, P.E.**  
City of Sedro-Woolley

**Councilmember William Ganley**  
City of Battle Ground

**Councilmember Calvin Goings**  
Pierce County

**Secretary Paula Hammond, P.E.**  
WSDOT

**Doreen Marchione**  
Special Needs Representative

**Councilmember Neil McClure**  
City of Yakima

**Dick McKinley**  
City of Bellingham

**Dave Nelson**  
Grant County

**Jill Satran**  
OFM

**Heidi Stamm**  
Private Sector Representative

**Harold Taniguchi**  
King County Metro Transit

**Steve Thomsen, P.E.**  
Snohomish County

**John Vodopich, AICP**  
City of Bonney Lake

**Jay Weber**  
CRAB

**Ralph Wessels, P.E.**  
Non-Motorized Representative

## 2008 Meeting Dates

January 24-25	Seattle
March 27-28	Ellensburg
May 29-30	Pullman
July 24-25	Mount Vernon
September 25-26	Chelan
November 20-21	Vancouver

# Performance Summary

TIB uses a real-time data dashboard to monitor projects and agency performance. TIB met all of its financial performance targets for the first time at the end of the 2007 fiscal year. This achievement completes a six-year effort to correct past over-allocations of grant funding throughout the previous decade. Performance targets are now met for a number of projects, amount of obligations, account balances, accounts payable, and payment turn-around time. We have reduced delayed projects by 60 percent, and the time to construction was shortened in each program. Payment turn-around time to local agencies averages 21 days or less.

TIB's positive financial results are well timed. Project costs soared about 40 percent from 2005 to 2007 and revenue forecasts mostly dropped each quarter. Still, strong finances allowed us to award new projects in each of our six programs. TIB has not cancelled a call for projects in any program since 2002.

## Capital & Operating Expenses

The Transportation Improvement Board's revenue for Fiscal Year 2007 was \$112,708 million.

### Fiscal Year 2007 Expenditures

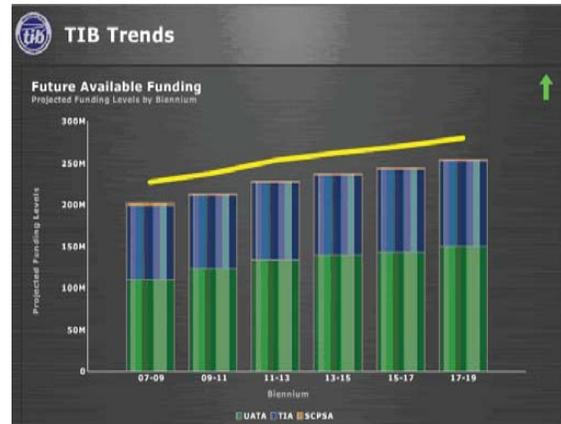

Transportation Improvement Account 144 Capital Expenditures	48,778,932
Urban Arterial Trust Account 112 Capital Expenditures	58,474,455
Small City Pavement and Sidewalk Account 08M Capital Expenditures	943,053
Administrative Operating Expenditures	1,385,053
<b>Total</b>	<b>\$109,581,493</b>

Revenue for the Transportation Improvement Board comes from the distribution of motor and special fuel excise tax. For the 2005-07 biennium, the Transportation Improvement Account 144 (TIA) received \$5 million of additional revenue to help fund newly selected corridor completion projects. The Small City Pavement and Sidewalk Account received a separate biennial appropriation of \$2 million.

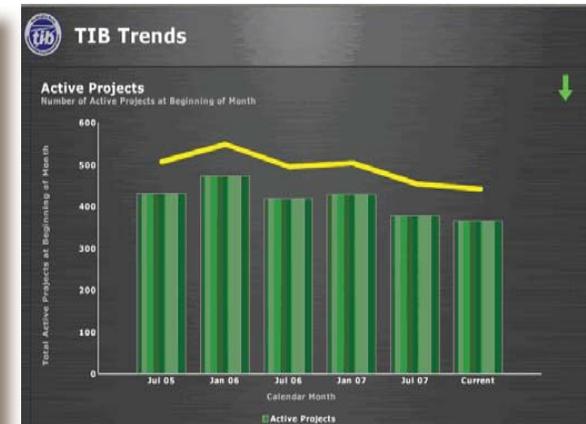

# Measures & Trends

TIB now has sufficient performance management data to assess multi-year trends. The pictures show the key trends that TIB monitors. The indicator in the upper right hand corners show whether the trend is good (green), needing attention (yellow), or unfavorable (red).

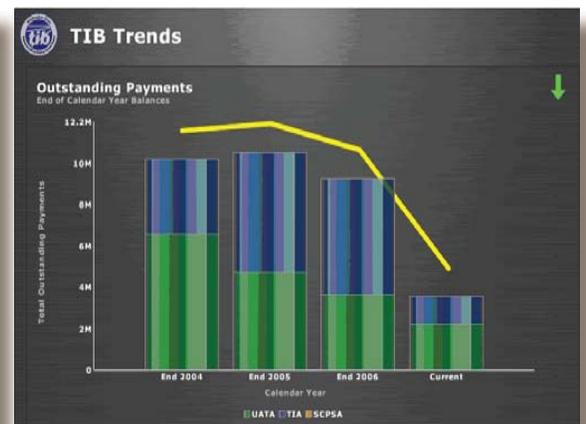

*Future available funding is based on the revenue forecast for the statewide fuel tax. Modest increases are forecast for the long term.*

*The number of active projects is monitored for closeout of old projects, management of workload per engineer, and sustainability of number of new projects selected each year.*

*In addition to the number of projects, remaining obligation is important to measure for future program size. Stable remaining obligation is key to balancing the cashflow for the agency due to demand by customers.*

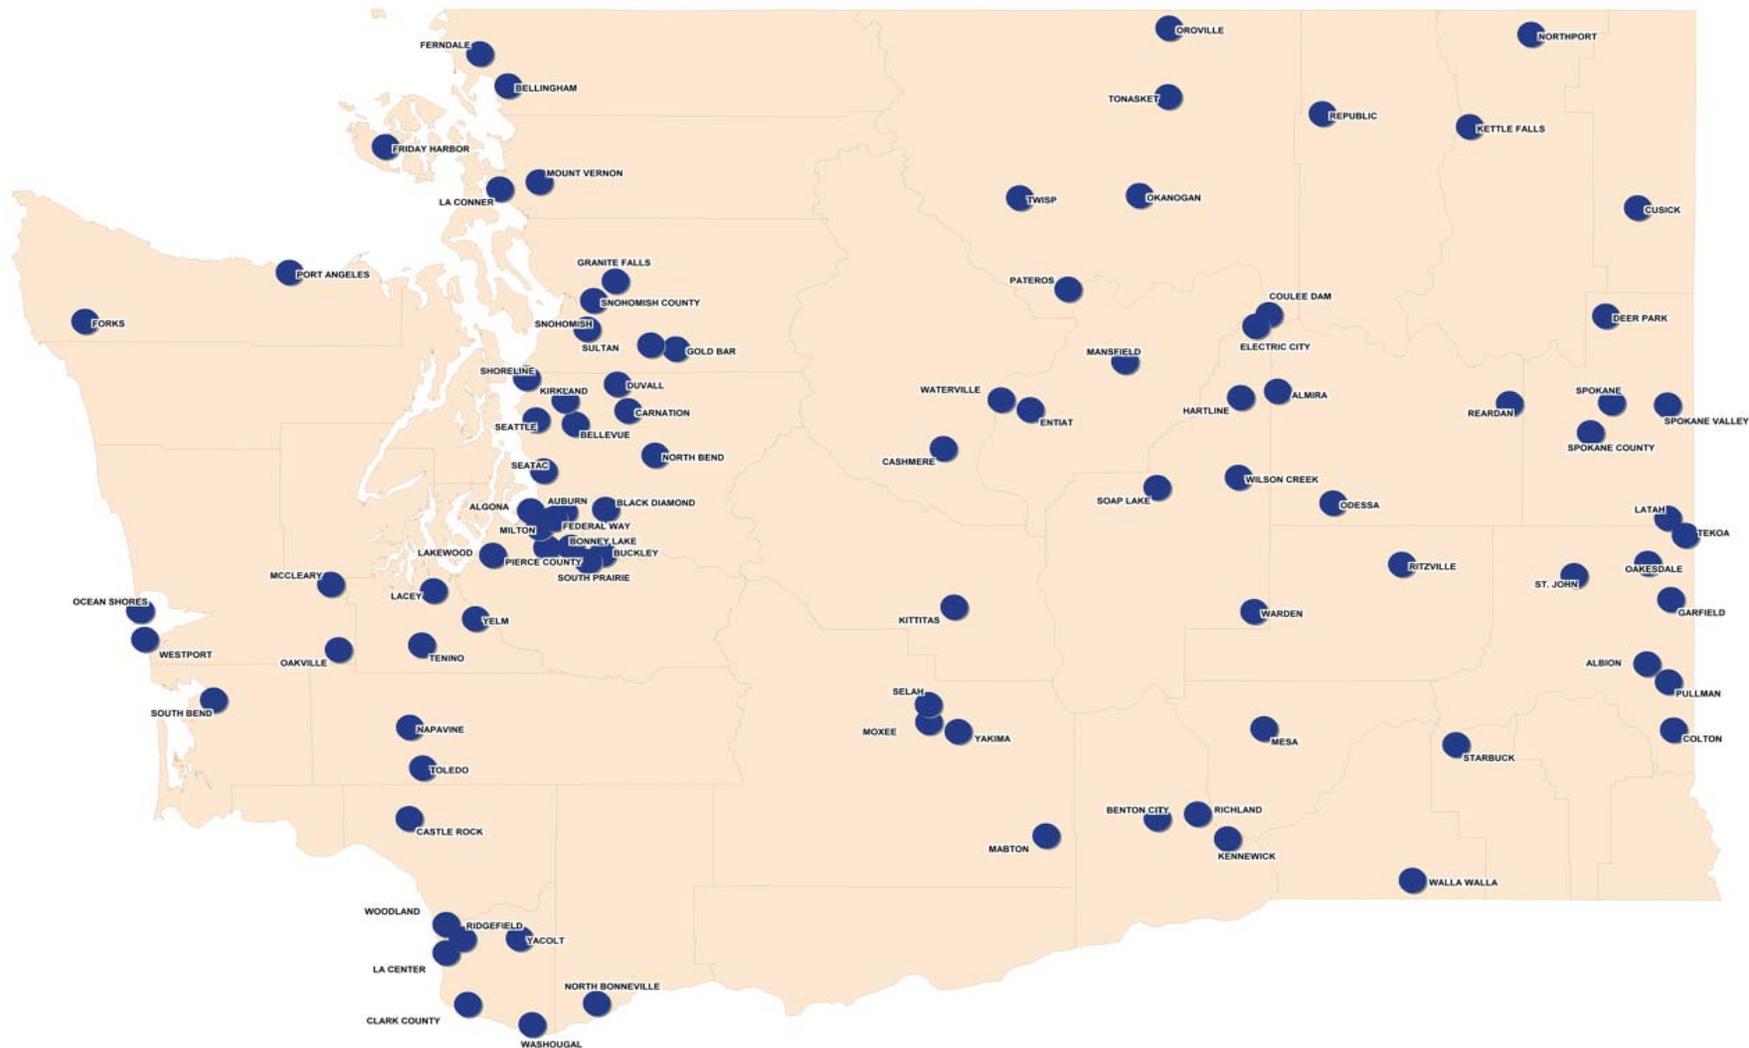

*Outstanding payments may show spikes in demand when the construction season is winding down. The amount in accounts payable should not outstrip the capacity of available cash so increased demand may be mitigated.*

# Projects Awarded in November 2007

TIB awarded \$69 million to 108 projects in November 2007. The newly funded projects include 39 street construction projects, 21 sidewalks, and 48 small city street maintenance projects. TIB performance targets call for completion of the urban projects over the next five years. Sidewalk and small city projects should be completed in two years. The tables on the following pages list the new projects.

# Projects Awarded in November 2007

Leg. Dist.	Agency	Project Name	Project Location	TIB Funds	Total Cost
2	YELM	Coates Avenue NW	Stevens St NW to Cullens Rd SE	550,000	1,017,887

# Featured Projects

**City of Blaine - Marine Drive**

**City of Kent South - 228th Street**

**City of Montesano - Main Avenue**

**City of Shoreline - Aurora Avenue North**

**Town of Springdale - CDB Sidewalks & Paving Partnership**

**Yakima County - Riverside Road**

# City of Blaine

## Marine Drive ~ Peace Portal Drive to Lift Station

Marine Drive provides the only access to Blaine's recreation and industrial waterfront. TIB provided nearly \$1 million to reconstruct Marine Drive with parking and non-motorized access. The city improved Marine Park at the same time and the resulting greenway, trail and sidewalks offer an enticing stroll to nearby Peace Portal Park at the Canadian Border.

**TIB Funds**                    **\$764,203**  
**Project Cost**                **\$962,828**

# City of Kent

## South 228th Street ~ Des Moines Road to 54th Avenue South

South 228th Street presented a unique opportunity to invest in an entirely new access to the Green River Valley, a highly developed commercial area with relatively few east-west transportation routes. The street and bridge provide new access from I-5 to corporate parks and truck terminals north of downtown Kent. Both SR 516 and South 212th Street will see congestion relief.

**TIB Funds**      \$4,637,727  
**Project Cost**   \$26,281,304

# City of Montesano

## Main Avenue ~ Brumfield Avenue to Wynoochee Avenue

Main Avenue is the primary business street from SR 12 into downtown Montesano. The new street has wide sidewalks and landscaping serving shops and businesses in the downtown district. Renewed downtown streets help encourage a healthy business climate, creating a positive impact in Montesano.

**TIB Funds**                    **\$687,882**  
**Project Cost**                **\$1,341,021**

# City of Shoreline

## Aurora Avenue N (SR 99) ~ North 145th Street to North 165th Street

Aurora Corridor is undergoing a complete overhaul to convert the 1950s style highway into a current day downtown street. The first phase of this transition opened in 2007, and TIB also provided funding for phase two in 2007. The project includes widening for HOV lanes with the addition of sidewalks and aesthetic improvements. Shoreline constructed the Interurban Trail extension at the same time and opened two new trail bridges over Aurora along with the new street. The new corridor is expected to work in concert with land use plans for the Shoreline business district.

<b><i>TIB Funds</i></b>	<b>\$5,480,000</b>
<b><i>Project Cost</i></b>	<b>\$28,274,933</b>

*"Shoreline drivers, bicyclists, pedestrians, business owners, the disabled and transit users are already noticing a vast improvement in safety, traffic flow and convenience," said Shoreline Mayor Bob Ransom. "Improving Aurora has been a community goal since the City incorporated in 1995, and I am proud to say we have created a safer and easier-to-use Aurora Avenue."*

# City of Springdale

## Main Street/W Shaffer Street/N 2nd Street ~ 4th Street to School Street

Downtown Springdale had severely decayed sidewalks and failing pavement before TIB and WSDOT teamed up to restore Highway 231. TIB paid for new sidewalks and partnered with WSDOT on paving the highway shoulders. The town won a state Recreation and Conservation Funding Board grant to construct a gazebo and ADA accessible boardwalk to access scenic Lucky Duck Pond. The sidewalk improvements integrate nicely into the boardwalk. Springdale will see additional assistance from TIB over the next several years to change its "worst pavement condition" status to a new and improved pavement rating.

<b>TIB Funds</b>	<b>\$192,665</b>
<b>Project Cost</b>	<b>\$196,696</b>

# Yakima County

## Riverside Road ~ SR 24 to West Birchfield Road

Yakima County's new Riverside corridor is the first north-south urban arterial in the growing area east of the Yakima River. This area abuts the City of Yakima and portions of it already have urban development. Prior to completion of South 33rd Street, only narrow and winding rural roads linked Terrace Heights to Highway 24. The new four-lane arterial supports orderly growth, without undue impact on old rural roads. Yakima County coordinated construction of South 33rd Street with the WSDOT project to build a new Highway 24 bridge over the Yakima River. Both projects opened on the same day, improving access and safety throughout the region.

**TIB Funds**            **\$1,350,000**  
**Project Cost**        **\$2,006,991**
